

Health Care Business

Because health care sometimes involves business issues which require expertise in many traditional practice areas, lawyers who concentrate in corporate, tax, finance, securities, real estate, immigration, and labor and employee benefits work together to provide comprehensive legal services to health care clients.

The Health Care Industry Team is comprised of more than 30 lawyers who focus on some aspect of the health care industry. Our Firm is recognized as having the largest health care practice of any Florida-based law firm, and has lawyers who practice in the areas of business, regulatory and litigation throughout all of our offices.

Fowler White Boggs Banker is ranked by *Best Lawyers in America* as #1 in Florida in Health Care Law. Chambers USA also recognized our Firm giving it leading rankings in **Health Care**.
